

Spreader Bar for Forklift

Forklift Spreader Bars - ELME has been proudly operating since nineteen seventy four, becoming the largest independent spreader maker around the world. They are a dedicated manufacturer of spreaders for a lot of various applications like the handling of containers, swap bodies and trailers.

Engineering is done in house by using the newest CAD systems and FEM tools. The ELME company currently has over one hundred twenty five employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the world.

The ELME product range offers spreaders for several trailer and container handling operations. Several of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers as well as a wide array of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created more than one thousand one hundred fifty spreaders by way of using top quality components to guarantee reliability and high standards while offering reasonable prices. Major features of ELME include design simplicity, market response and innovative modular spreader concept.
