

## Rockwell Parts

Rockwell Parts - The company of AxleTech International is a big supplier of specialty vehicle drive-train systems and components together with off highway vehicles. They take great pride in being a chosen supplier to their customer base. AxleTech strives to meet and exceed their clients' expectations for service, technology, delivery and quality. They believe in working in an atmosphere that supports the highest integrity with empowered teamwork, combined with a unrelenting pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious business and offering a safe surroundings for their workers to work in. In addition, they have applied a lot of programs in the organization to help convey these values in their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with whichever questions or comments, since they are happy to share and promote this policy with a greater knowledge of their efforts. They are really devoted to preserving and improving the environment. AxleTech has an EHS program that not just protects the environment but which even actively protects their neighbors and workers also.

AxleTech prides themselves as being a ground-breaking drive-train solutions provider. They specialize in designing and manufacturing planetary axles for both commercial and military applications. These applications vary from airport ground support to construction equipment. AxleTech particularly designs axles to meet certain application demands. They have more than one thousand different axle specs within their present offering. With more than 100+ years of skill and history, AxleTech proudly supplies the most complete solution for any of your axle needs. The business is well known in numerous commercial and military applications. They offer complete axle assemblies for aftermarket replacement requirements, together with servicing axle requirements for OE production. Their high mobility ISAS have further details which can be seen in the "ISAS" product collection.
